

Dental System Digital Dentures

1-day training

Recent advancements in 3Shape Denture Design software and new possibilities within materials and manufacturing make it highly attractive and profitable for labs to produce dentures digitally. Moving forward, digital production of dentures is expected to disrupt the industry for removable partial dentures. Now's the time to get on board.

Upon completion of the course, you will be able to:

- Scan and Design single-arch denture;
- Design Immediate Denture based on the TRIOS scan;
- Design Complete upper and lower set of Dentures;
- Design Removable Partial Denture;
- Choose the optimal denture production method.

Target group: 3Shape Dental System users with minimum 6 weeks of design experience.

Number of participants: Maximum number of participants is 8.

Frequency: 1 per month.

Course price: *Please contact us for the price*

Time: 10:00 – 16:00.

Certificate: a CPD approved certificate will be issued upon completion of the training.

Location: Reading, UK

Trainer: Michal Kawczynski, Training & Application Specialist at 3Shape UK.
